**Subject:** CCGLA Board  
**Attachments:** CCGLA Vision & Plan.doc

Dawnetta,

I've attached a document that I've put together outlining my personal vision/plan for CCGLA over the next couple of years. Obviously this is not something that can happen all at once (I fully understand that), however it does provide a guide to some of the ideas and directions that I'd like to see CCGLA move towards.

I remember sitting with you at Starbucks in early 2003 (before the first community meeting) discussing the future of CCGLA, and as I mentioned to you on the phone last week, I firmly believe that this is an organization that needs to exist, and continue to develop a stronger presence in Collin county. Allowing it to fade into the background is not an option, and as we discussed last week, was a reason I felt it important to run for the board.

That being said, I am also sending this document to you, as I plan on nominating for the office of president, and I want your support for this. Of course, you can only support me if you have a better understanding on what I hope to achieve while on the board. I think you gauged a part of that during our conversation last week, and I hope the attached will fill in some gaps you might have.

For CCGLA to continue the success that you have lead the organization through over the past two years, a strong individual with a vision, time and energy needs to continue in the role of president. I hope you know me well enough to know that I can deliver on that.

If you would like to talk about this, please call me. I certainly would be interested in your feedback on the above and the attached.

Regards,  
James
