

## **CCGLA PLAN: 2005-2007**

Ideas/thoughts for term on CCGLA Board

James Nunn, June 11, 2005

### Education

- Continue providing information to the community and interested individuals through the CCGLA website
- Expand options for member-access to the website
- Explore options to work with individuals/organizations in providing education on health issues (e.g. HIV/AIDS), legal issues and other issues

### Political Awareness

- Increase participation in political committee
- Seek to focus committee on the current issues facing GLBT Texans, and to develop stronger partnerships with other organizations
- Increase responsiveness to political issues, including a more public face on activities

### Social Interaction

- Maintain a strong focus on social interaction with members, and other organizations throughout the community
- Evaluate the frequency of the social activities that are occurring, and seek a plan from the Social/Special Events Committee on how to best meet the needs of members, and interested individuals

### Board of Directors

- Establish Board Advisory Committee and appoint community representatives from organizations throughout Collin County
  - Purpose of this advisory committee is to explore the opportunities available to build partnerships with organizations throughout the community
  - Focus will be to investigate extended partnerships with other county/city based groups
  - This committee would also explore the role of CCGLA within the community and recommend improvements to the Board
  - Quarterly meetings with the Board
- Streamline roles of organizations connected with CCGLA, and develop a more efficient method of communication
- Provide more information to CCGLA membership base (minutes, financial information, etc)

### Program Development

- Continue to assist new group development within the area

#### Foundation

- Develop stronger connection with the foundation

#### Community Development

- Continue to work with community organizations in supporting their mission (greater understanding, knowledge will be obtained through the advisory committee to the board)
- Identify events and activities within the community that CCGLA could support, and/or participate in
