Ken,

We've not had many opportunities to meet with each other, but I wanted to email you prior to our first meeting with the attached document that I've put together outlining my personal vision/plan for CCGLA over the next couple of years.

The reason I am sending this to you, is because I plan on nominating for the position of president, and I would like your support for this. Of course, you can only support me if you have a better understanding on what I hope to achieve while on the board, and in that role, and I hope the attached document provides a good part of this.

CCGLA is something that I have been passionate about since before the first community meeting in 2003. Prior to that meeting Dawnetta and I sat down to discuss the future of CCGLA, and develop a vision of how CCGLA would integrate within Collin county. As an original member of the steering committee, and founding board member, I have been committed to the success of CCGLA, and will continue to do so in my returning role as a board member. I believe that I can contribute most effectively as president, and this is why I am seeking your support.

For CCGLA to continue the success that Dawnetta has lead the organization through over the past two years, a strong individual with a vision, time and energy needs to continue in the role of president. I hope you will know me well enough to learn that I can deliver on that.

If you would like to talk about this, please call me. I certainly would be interested in your feedback on the above and the attached.

Regards,
James
